

CLAIMS

1-5 (Cancelled).

6. (Previously Presented) The method of Claim 21, wherein said carrier sheet has a thickness of not more than about 7 mils.

7-20 (Cancelled).

21. (Currently Amended) A method of making a sheet of dry-removable hang tags, comprising the steps of;

a) providing a laminate consisting of a sheet of tag material and a carrier sheet of substantially UV-transparent material bonded to each other by a UV-curable adhesive;

b) die-cutting said sheet of tag material to form tags having a major portion and a minor portion fully contained within, but fully separated from, said major portion; and

c) exposing said UV-curable adhesive to ultraviolet radiation through said carrier sheet, said ultraviolet radiation being of such a nature as to cause said adhesive to frangibly adhere to said tag material sheet;

d) whereby upon removing said major portion of said tags from said laminate, said major portion separates from said ~~laminate~~ carrier sheet free of adhesive but said minor portion remains adhered to said ~~laminate~~ carrier sheet.

22-23 (Cancelled).
